

End of Sale Notice

AQUALAB 3 Water Activity Meter Announced October 8, 2026

This notice announces the End of Sale for the AQUALAB 3.

Life Cycle Events	Date
End-of-sale Date	November 30, 2026
End-of-service Date	November 30, 2031

Product Lifecycle Status

The AQUALAB 3 is reaching end of life and will be discontinued. Customers considering a new AQUALAB instrument can now also evaluate the AQUALAB 5TE, our latest addition to the portfolio.

Ordering and Availability

Final orders for the AQUALAB 3 must be received by November 30, 2026. No new orders will be accepted after that date. Remaining supply is limited and will be filled first-come, first-served.

Service and Support

Service, calibration, and repair support continue through November 30, 2031. Sensor block replacement remains available during this period. The AQUALAB 3 Block Swap Pool is discontinued.

Replacement Product Guidance

AQUALAB 3 owners continue to receive service and support throughout the support period. For new purchases, the AQUALAB 5TE offers improved performance and long-term service availability.
