

End of Service Notice

ROS 1 Moisture Analyser
Announced October 8, 2026

This notice announces the End of Sale and End of Service for the ROS 1.

Life Cycle Events	Date
End-of-sale Date	May 29, 2025
End-of-service Date	December 31, 2028

Product Lifecycle Status

The ROS 1 has reached end of life and is no longer manufactured. Addium continues to invest in the AQUALAB benchtop portfolio for moisture and water activity measurement.

Ordering and Availability

The ROS 1 is no longer available for sale and Addium is not accepting new orders, as the parts required to manufacture additional units are no longer available.

Service and Support

Given limited market adoption, Addium is applying an accelerated End of Service schedule to the ROS 1. Service and support continue through December 31, 2028, and annual service remains available during that period. After that date, Addium will no longer service, repair, or provide replacement parts for the ROS 1.
